

Welcome Letter From the District Commissioner for the Mediterranean Area

Dear Mediterranean District Scouts, Scouters and parents:

Congratulations on making the decision to join one of the nation's greatest programs for young people. It gives me great pleasure to welcome you to the Mediterranean District.

As you may know, joining at the local level has made you part of the Transatlantic Council, which is only a smaller portion of the National Scouting Program — the Boy Scouts of America. The Transatlantic Council is divided into geographic districts to help facilitate communications, implement programs and provide services to its 8500 members.

I am the District Commissioner of Mediterranean District. Each District Commissioner along with the District Chairman and District Executive provides the local members with a voice at the council and national level by holding a seat on the Council Executive Board. I am appointed by the Council Commissioner in the Transatlantic Council, and my fellow officers and I work closely with you to deal with the issues we face in our Council, to coordinate interaction between all the Districts in our area, and to run the district programs to provide a solid program for today's youth.

Throughout the year, I hope to see you at District programs, training, and district meetings. In addition to offering a forum to learn from each other, these meetings give us the opportunity to visit with our colleagues from neighboring countries, share ideas and work together.

Welcome to the Mediterranean District.

Yours in Scouting,

Bill (Wildman) Nupp
